## PROFESSIONAL EXPERIENCE

---

### Software Engineer

November 2022 - March 2023

*UNC Charlotte's Full Stack Flex Web Developer Program*

*Charlotte, NC*

- Built front-end focused applications using Figma and JavaScript packages like React.js, collaborating with other developers to create fully functional full stack applications.
- Developed "Sofa King Cool," a virtual home application with a team, utilizing SQL for database creation and CRUD operations.
- Utilized GitHub for version control and effective team communication in order to successfully implement ideas into minimal viable products within tight timeframes.
- Created my own portfolio using React.js to showcase my ongoing projects and other relevant skills. React hooks and use state allow for ease of transition from one page to another. Sass was used to create a clean and responsive web layout.

### Manager Barista

March 2018 - November 2022

*Not Just Coffee/Queen City Grounds*

*Charlotte, NC*

- Summary: Uphold company standards on product and service of food, specialty coffee drinks, alcohol, management and training of staff, teamwork, and effective communication.
- Cultivated and maintained positive relationships with guests and staff by staying attentive to their needs and anticipating their wants

### Flexologist & Fitness Trainer

February 2019 - July 2021

*Stretchlab/CrossfitATP*

*Charlotte, NC*

- Evaluate, educate, and improve client's quality of life through stretching and mobility routines aimed at increasing muscular length, muscular strength, and joint stability/health.
- Critical thinking to evaluate musculoskeletal limitations and design programs to improve range of motion under tension.
- Continuing education, staying up to date on latest studies of strength and mobility.

## EDUCATION

---

### Bachelor of Science in Kinesiology

August 2020

*UNC CHARLOTTE*

*Charlotte, NC*

- Magna Cum Laude

## CERTIFICATIONS & INTEREST

---

**Certifications :** Full Stack Web Developer, Zero to Expert: JavaScript Developer 2023, Zero to Master: Python Developer 2023
