Technologies and Frameworks:
Python, JavaScript (ES6), React.js, Node.js, Web APIs, Third Party APIs, Server Side APIs, RESTful APIs, Express/Express.js, SQL, MySQL, Object Relational Mapping, Object Oriented Programming, Handlebars.js, NoSQL, MongoDB, Mongoose, MERN stack, Jest Testing, Sass, Model-View-Controller Paradigm
Tools:
DOM, Visual Studio Code (VS Code), Figma, Bootstrap, Wireframing, macOS, Google ChromeOS, Slack, GitHub, GitLab, Version Control, Parcel, Babel, Netlify

Recent Projects

Portfolio
- *Technologies***:** React.js, GitHub, Bootstrap, CSS, JavaScript, Sass
- *Summary*: Used React to create a single page application using components that feature recently deployed applications, an about me section, and different ways to contact me. This SPA is easy to navigate, has a clean and polished UI, and is mobile responsive.
- *Deployed Application*: *https://bit.ly/kass-portfolio*
- *Repository:* https://github.com/kassrojas/kass-portfolio-react

Forkify
- *Technologies***:** JavaScript, HTML5, CSS5, Sass, Parcel, Babel, NPM
- *Summary*: Using the Forkify API, this desktop application allows users to search for an ingredient and receive a list of related results. Upon selecting a search result, the user is presented with recipe details such as serving size, that can be adjusted, and the ability to bookmark recipes. Users can add custom recipes and using local storage, can exit the application and return to find all their favorite recipes still bookmarked.
- *Deployed Application*: https://forkify-kass.netlify.app/
- *Repository:* https://github.com/kassrojas/forkify-recipe-search

Education

Full-Stack Web Developer Certification
UNC Charlotte School of Professional Studies
13-week intensive program focused on gaining technical skills building full web applications from scratch to deployment.

Zero to Expert: JavaScript Course in 2023 Certification
Deep learning modern ES6+ concepts and their usage in OOP, functional programming, and MVC paradigms. Built real-world projects that use asynchronous functions, AJAX calls, and bundler tools like Parcel and Babel.

Zero to Master: Python Developer in 2023 Certification
Learned Python for scripting, web scraping with Beautiful Soup, automation and testing with Selenium, email and SMS, machine learning, and image detection.

Bachelor of Science in Kinesiology
UNC Charlotte || **Magna Cum Laude Graduate**
Study of anatomy, biomechanics, and injury management to carry over into a clinical setting.
