SUMMARY

Dynamic Front-End Engineer with proven expertise in creating high-performance web applications for data-intensive environments. Skilled in React and Remix, with a focus on optimizing large-scale data handling. Played a key role in a no/low code Cloud startup, working directly with the CEO to develop a full-stack application from concept to launch. Seeking a role to leverage my front-end development skills in innovative web application projects.

SKILLS

- .. Languages/Frameworks: JavaScript (ES6+), TypeScript, React (including Remix), TailwindCSS, Node.js
- .. UI Libraries: ShadCn UI
- .. State Management: Jotai
- .. Package Managers: Bun, NPM, Homebrew
- .. Performance Optimization: Efficient handling of large datasets, Lazy Loading, Code Splitting, Image Optimization, Caching
- .. Version Control: Git, GitHub
- .. Development Tools: Figma, Parcel, Babel, Netlify
- .. Methodologies: Agile, Scrum, Object-Oriented Programming (OOP), Functional Programming, Unit Testing, Continuous Integration

PROFESSIONAL EXPERIENCE

Front-End Software Engineer, Onward Platforms

February 2024 - Present

- At Onward Platforms, a company committed to streamlining app development through innovative no-code IaC (infrastructure as code) developer tools, I have played a crucial role in optimizing the user experience and interface. In collaboration with the company's Founder and 2 other developers, my responsibilities have been geared towards refining the UI/UX of our principal designer tool, with an emphasis on achieving simplicity and consistency for app developers.
- Collaborated directly with the Founder and a small development team to refine the UI/UX of our no-code IaC developer tools, focusing on user-centric design principles.
- Employed ReactFlow to develop dynamic and responsive node activities. Focused on user-friendly interfaces to significantly improve the development experience.
- Wrote clean, maintainable code and actively participated in code reviews, enhancing codebase quality and team knowledge sharing.
- Leveraged a modern tech stack (React/Remix, TailwindCSS, Bun, Jotai, ShadCn UI) to build responsive applications, demonstrating technical skill and innovation.
- Adapted rapidly to new project requirements, identifying and implementing efficient solutions to complex technical challenges such as loading times for processing and rendering of large datasets.
- Contributed strategic ideas and feedback, playing a key role in driving the project's direction and success while embodying the company's core values.
- During my time at Onward Platforms, I have significantly contributed to the enhancement of our low to no-code tool's user interface, ensuring an efficient, engaging, and user-friendly experience for developers.

Full Stack Web Developer Certification

November 2022 - March 2023

- Actively engage in the development of multiple web applications, acquiring expertise in the complete stack. Utilized a MERN tech stack that includes HTML, CSS, JavaScript (ES6+), React for front-end, and Node.js for back-end, gaining a strong foundation in cross-functional development.
- Collaborated with teams of 2 to 5 developers to create full stack applications. Developed a virtual home app that allows users to organize and manage their furniture ideas in one place. Utilized SQL to perform CRUD operations that provided a structured and efficient way to manage, store, and retrieve data, ensuring data integrity, performance, and security.
- Used GitHub for maintaining organized code repositories. Participated in code reviews, continuous integration checks, and contributed to code documentation.
- Gained performance optimization techniques, such as lazy loading, code splitting, and image optimization, focusing on improving load times for a better user experience and adherence to SEO best practices.

EDUCATION / CERTIFICATIONS

- UNC Charlotte Bachelor of Science in Kinesiology *Magna Cum Laude*
- UNC Charlotte Full Stack Web Developer Certification
- Expert JavaScript Developer in 2023, Master Python Developer 2023, Complete SQL 2023 Certification
